

Elephant Island

wine you love. made simply.

Sometimes it really feels like you are up against it. A wicked cold snap in late November has wreaked havoc with Okanagan farms. Crops yields will likely be significantly diminished because of bud and plant loss. Operationally 'uncertainty' seems to be the catch phrase for 2023.

But we have Del

Del is unfailingly positive. And funny. If you ever walk into the cellar when Del's working you most likely will hear singing. Loud. Britney Spears to the Tragically Hip, Del will rock it.

In honor of Fathers Day, we wanted to recognize the power of Del. Of positivity and humor (and wine). It truly builds resiliency.
